SUBJECT: Response to Request For Additional Information Re: Indian Point Units 1, 2 and 3
Safeguards Contingency Plan and Section 9.4.1 of the Physical Security Plan
(TAC Nos. MC2929 and MC2930)

Reference:

1. NRC Letter to Entergy, "Indian Point Nuclear Generating Station, Units 2 and 3 – Request For Additional Information Re: Safeguards Contingency Plan and Section 9.4.1 of the Physical Security Plan (TAC Nos. MC2929 and MC2930)," dated July 23, 2004
2. Entergy Letter (NL-04-061) to NRC, "Supplemental Response to the April 29, 2003, Orders to Indian Point Units 2 and 3," dated June 1, 2004

Dear Sir:

Entergy Nuclear Operations, Inc., (ENO) is in receipt of the referenced letter containing requests for additional information (RAIs). In order to standardize our approach with the NRC-approved industry approach, ENO's April 29, 2004 responses to Order EA-03-086, as supplemented in Reference 2, were strictly based on NEI-03-12, "Template for the Security Plan, Training and Qualification Plan, Safeguards Contingency Plan" Revision 1, as approved by the staff in a letter from Roy P. Zimmerman to Steven D. Floyd dated June 10, 2004.

In response to these NRC RAIs, ENO is using revised language reflecting agreement reached between the industry Security Working Group (SWG) licensee representatives and the staff. ENO proposes to provide revised Security Plans or replacement pages for each site that incorporate all of our RAI responses on a schedule to be determined with the staff.

Attachment 1 provides responses to the RAIs in Reference 1. This letter contains new commitments listed in Attachment 2. If you have any questions or require additional information, please contact Mr. Patric W. Conroy, Manager, Licensing at (914) 734-6668.
