Dave,

See enclosed two 50.59(a)(2) SEs that are designated with the two numbers from your list. Without having any other data to allow cross reference to these numbers (eg, a title or design change, or other document) I can only assume that these two SEs are the documents your people reviewed during the inspection. I thought you said the two numbers (2000-004, 2001-020) were under a listing of "screens"? I have asked some people here and the only docs that get number designations are SEs not screens. When we used to bring these docs to PORC, they would be assigned the number designations.

I also left you a voicemail regarding this too.

Any other questions let me know and I'll see what I can do to further assist.
