Subject: File Moves

All,
IT is in the process of moving files and shares from the old servers - VYCorpPDC, VYPlantBDC & VYEngBDC - to VYShared1. Eventually, these old servers will be retired.

When departmental folders are to be moved, this will be scheduled with the department Manager and you will be notified. There are, however, numerous other top-level folders that also must be moved.

If you cannot find a folder in its current location, or your shortcut fails to work, please check the following excel spreadsheet. It indicates the name of the old server, its full path, and the new location.

\\VYShared1\Public\FilesMovedTo\Old&NewFileLocations.xls.

Thank you,

Bob Rueter
