Subject: FYI: Curator, Empac, I2K, eSOMS, Humperf, Rems & Trak2000 Sun Mar 7 Mthly Downtime & Mar 21 Pre-Outage Downtime

FYI:

The **Curator, Empac, Envyint (I2K), eSOMS, Humperf, Rems & Trak2000** Oracle Databases will be taken offline this **Sunday Mar 7th** for Normal Monthly Maintenance & Backups per plant schedule.

The above applications will also be taken down on **Sunday Mar 21st** for backups instead of April 4, in support of RFO24.

Calls to control room and check points will be initiated with return calls after the related databases are back on-line.

**Curator, Envyint, eSOMS, Humperf, Rems & Trak2000** should each be off-line approx. **30 mins.**

Empac should be off-line for approx. **2 Hrs.**

P3 Users Note: The P3 to Empac Interface for Sunday may not run if the Empac Database is off-line. The Interface will run the following night as usual, re-synching the databases.

PCRS Note: Please be aware that PCRS Department Head Notification may also be affected during this down time.

Please call me for questions or concerns
Thank You in advance for your support.
