Subject: FYI: Curator, Empac, I2K, eSOMS, Humperf, Rems & Trak2000 Sun Mar 21 Pre-Outage Downtime

FYI:

The Curator, Empac, Envyint (I2K), eSOMS, Humperf, Rems & Trak2000 Oracle Databases will be taken offline this Sunday Mar 21st for Pre-Outage Monthly Maintenance & Backups per plant schedule.

The above applications will be taken down on Sunday Mar 21st for backups instead of April 4, in support of RFO24.

Calls to control room and check points will be initiated with return calls after the related databases are back on-line.

Curator, Envyint, eSOMS, Humperf, Rems & Trak2000 should each be off-line approx. 30 mins.

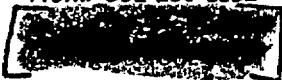

Empac should be off-line for approx. 2 Hrs.

P3 Users Note: The P3 to Empac Interface for Sunday may not run if the Empac Database is off-line. The Interface will run the following night as usual, re-synching the databases.

PCRS Note: Please be aware that PCRS Department Head Notification may also be affected during this down time.

**Please call me for questions or concerns
Thank You in advance for your support.**
