Subject: Re: Current info on North Anna ESP

I think my best bet may be to just include it as part of the email. Here it is:

The U.S. Nuclear Regulatory Commission (NRC) received an early site permit (ESP) application, dated September 25, 2003, from Dominion Nuclear North Anna, LLC. The application asks the NRC to consider whether the North Anna site would be suitable for the future construction of up to two new nuclear units. The applicant is not requesting approval to actually build the units. The NRC's ESP review process was discussed at a public meeting in the Louisa County Library on April 1, 2003, at the Lake Anna Civic Association annual meeting on July 26, 2003, and at a public scoping meeting for the environmental review at the Louisa County Middle School on December 8, 2003.

The application is available through the NRC's web page (www.nrc.gov) and at the Louisa County Library, 881 Davis Highway, Mineral, Virginia. The web page location for the application is <http://www.nrc.gov/reactors/new-licensing/license-reviews/esp/north-anna.html>.

The NRC is currently developing a draft safety evaluation report (focusing on site safety issues) and a draft environmental impact statement (focusing on environmental issues). The staff plans to publish draft environmental impact statement in October 2004 and the draft safety evaluation report in December 2004. In the meantime, if you have questions concerning the NRC review you can contact Mike Scott, Site Safety Project Manager, or Andy Kugler, Environmental Project Manager. Mike can be reached at (800) 368-5642, extension 1421, or by email at MLS3@nrc.gov. Andy can be reached at the same 800 number, extension 2828, or by email at AJK1@nrc.gov.

For more information regarding the ESP process go to:

<http://www.nrc.gov/reactors/new-licensing/license-reviews/esp.html>

I just started a 3-month temporary assignment in another office. If you have any questions in the meantime, Jack Cushing (jxc9, 301-415-1424) is filling in for me and can help. I'll be back near the end of June.

Andy

Hello Andy

Thanks for keeping me up to date.

The attachment was in a text that was not "read-able" in MS Word.

Can you copy the attachment in MS Word?

Thanks,

Bill Borduin

CC: Cushing, Jack
