

August 26, 2004

Ms. Barbara Romanowsky, Administrator
Office of Environmental Assessment
Department of Environmental Quality
602 N. 5th, P.O. Box 4313
Baton Rouge, LA 70821-4313

Dear Ms. Romanowsky:

We have reviewed the proposed regulation amendments to the Louisiana Administrative Code, Title 33, Part XV, *Radiation Protection*, RP035, received by our office on July 1, 2004. Our review and comments are in response to the State's request for Nuclear Regulatory Commission (NRC) evaluation of the changes to Louisiana Administrative Code that incorporated the amendment identified on the States Regulation Status Data Sheet (SRS). These regulations were reviewed by comparison to the equivalent NRC rules in 10 CFR Parts 20, 30, 31, 32 and 36 and the requirements of the four amendments identified in the enclosed SRS. We discussed our review of the regulations with Sharon Parker on June 26, 2004.

As a result of our review, we have one comment and one editorial suggestion. In addition, we reviewed corrections to the Louisiana Administrative Code, Title 33, Part XV, *Radiation Protection*, RP032, resulting from the seven comments in NRC letter dated July 31, 2003. As a result of that review, we have no comments on the corrections made, but we note that four of the seven comments were not addressed. We have included these four comments in a separate chart for you. We understand that these comments will be addressed in a later rule package proposed for this fall.

Under our current procedure, a finding that a State regulation meets the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final State regulation. Please provide a final amended version of your rules, showing the location of any changes made, in response to our comments. If there are any comments which the State believes are in error, the State should identify the section of their regulations that meet the designated compatibility category. Please note that we have limited our review to regulations required for compatibility and/or health and safety, but have determined that if these regulations are adopted, incorporating our comments and without significant change, they would meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200.

The SRS Data Sheet summarizes our knowledge of the status of other Louisiana regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP website: <http://www.hrsd.ornl.gov/nrc/rulemaking.htm>.

In addition, if you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me, or Linda McLean at (817) 860-8116 or MLM1@NRC.GOV.

Sincerely,

IRA By K.P. Hsueh For/

Josephine M. Piccone, Deputy Director
Office of State and Tribal Programs

Enclosures:
As stated

In addition, if you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me, or Linda McLean at (817) 860-8116 or MLM1@NRC.GOV.

Sincerely,

IRA By K.P. Hsueh For/

**COMMENTS ON PROPOSED LOUISIANA REGULATIONS
AGAINST COMPATIBILITY AND HEALTH AND SAFETY CATEGORIES**

STATE SECTION		NRC Section	RATS ID	CATEGORY	SUBJECT and COMMENTS
1	322.D.3.J.ii.(f) iii	31.5(c) (13)(iv)	2001- 1	B	<p>GENERALLY LICENSED INDUSTRIAL DEVICES</p> <p>This section defines the use of general licensed devices under reciprocity. The State authorizes persons generally licensed by an agreement state to use the device for 180 days without requesting registration information.</p> <p>The State needs to clarify that if the device is generally licensed by other agreement states or the NRC that the licensee is not subject to registration requirements if the devices are used in the State's jurisdiction for a period less than 180 days in any calendar year.</p>

**COMMENTS ON PROPOSED LOUISIANA REGULATIONS
AGAINST COMPATIBILITY AND HEALTH AND SAFETY CATEGORIES
THAT REMAIN FROM NRC LETTER DATED JULY 31, 2003**

STATE SECTION		NRC Section	RATS ID	CATEGORY	SUBJECT and COMMENTS
1	2004 and 2051.D	39.15	2000-1	C	<p>AGREEMENT WITH WELL OWNER OR OPERATOR</p> <p>This section defines the minimum written requirements with the well owner or operator prior to performing well logging. The State has placed the notification aspects of these requirements in 2051.D, but did not revise 2004, to reflect the changes needed. The reference in 2004 is incorrect and the information in 2051.D is incomplete.</p> <p>The State needs to include all of the requirements of 39.15 and correct the cross reference to meet compatibility.</p>
2	2017.A and 2017.E	39.41	2000-1	B	<p>DESIGN AND PERFORMANCE CRITERIA FOR SOURCES</p> <p>This section defines minimum design and performance criteria for sources. The State has added 2017.E to include the new requirements and retained the existing language in 2017.A. The regulation is confusing and duplicative with the different dates and different requirements.</p> <p>The State needs to revise 2017.A and 2017.E to ensure that all of the requirements of 39.41 are met in order to achieve compatibility.</p>

STATE SECTION		NRC Section	RATS ID	CATEGORY	SUBJECT and COMMENTS
3	2017.F.2	39.53(b)	2000-1	C	<p>ENERGY COMPENSATION SOURCE</p> <p>This section lists the sections that apply to ECS applications without a surface casing for fresh water aquifers. The State reference to the equivalent to 39.15 is missing and the State makes reference to the equivalent of 39.41(Subsection E to 2017) which should not be referenced.</p> <p>The State needs to include the equivalent reference to 39.15 and remove the equivalent State reference to 39.41 listed in 39.53(b) to achieve compatibility.</p>
4	2017.E.3	39.41(f)	2000-1	B	<p>DESIGN AND PERFORMANCE CRITERIA FOR SOURCES</p> <p>The State regulations require that Energy Compensation Sources (ECS) must be registered with the State and do not allow ECS to be registered with NRC or other Agreement States.</p> <p>The State needs to require registration of ECS with NRC or other Agreement States to meet the requirements for compatibility in 39.41 (f)</p>

EDITORIAL SUGGESTION OF PROPOSED LOUISIANA REGULATIONS

1. In paragraph 328.D.1.a., and b, the State used the term “byproduct” material, instead of “radioactive” material.
