Mr. Suriya Ahmad, Standards Administrator
ANSI/ANS 8.27, Accounting for Irradiation of LWR Fuel
in Criticality Safety Analysis for Applications Outside of Reactor Cores
American National Standards Institute/American Nuclear Society
555 North Kensington Avenue
Chicago, IL 60526-5592

Dear Mr. Ahmad:

I would like to nominate Mr. Carl J. Withee to replace Mr. Meraj Rahimi as the authorized U.S. Nuclear Regulatory Commission (NRC) representative on ANSI/ANS 8.27, Accounting for Irradiation of LWR Fuel in Criticality Safety Analysis for Applications Outside of Reactor Cores (i.e., working group on burnup credit, Standards Development Committee). Mr. Withee is a Senior Project Manager responsible for NRC technical reviews associated with the aforementioned committee. By this letter, we also terminate Mr. Rahimi's membership on this committee.

In accordance with the Office of Management and Budget Circular A-119, "Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities," February 19, 1998, the participation on a committee of an NRC-authorized representative does not connote agency agreement with, or endorsement of, decisions reached by the committee, or of standards approved and published as a result of the committee's efforts. Agency representatives participating on standards developing groups will, to the extent possible, ascertain the views of the agency on matters of interest and will express views that are consistent with established agency views.

Correspondence should be addressed to:
