Mr. John Donnell
ANSI/ANS 2.19, Guidelines for Establishing Site-Related Parameters
for Site Selection and Design of an Independent Spent Fuel Storage Installation
Stone and Webster
P.O. Box 5406
7677 E. Berry Avenue
Englewood, CO 80111-2137

Dear Mr. Donnell:

We understand that although you are no longer the Committee Chair for ANSI/ANS 2.19 and that a Chair has yet to be designated, we forward to you for turn-over to the new Chairperson our nomination of Mr. Bhashker P. (Bob) Tripathi to replace Mr. Francis I. (Skip) Young as the authorized U. S. Nuclear Regulatory Commission (NRC) representative on ANSI/ANS 2.19, Guidelines for Establishing Site-Related Parameters for Site Selection and Design of an Independent Spent Fuel Storage Installation. Mr. Bhashker is a Structural Engineer and is responsible for NRC technical reviews associated with the aforementioned working group. By this letter, we also terminate Mr. Young's membership on this committee.

In accordance with the Office of Management and Budget Circular A-119, "Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities," February 19, 1998, the participation on a committee of an NRC-authorized representative does not connote agency agreement with, or endorsement of, decisions reached by the committee, or of standards approved and published as a result of the committee's efforts. Agency representatives participating on standards developing groups will, to the extent possible, ascertain the views of the agency on matters of interest and will express views that are consistent with established agency views.

Correspondence should be addressed to:
