This letter and attachments provide Entergy Nuclear Operations, Inc. (ENO), Pilgrim Nuclear Power Station follow-up response to the NRC letters containing requests for additional information (RAIs) (References 1, 2, and 3). Our initial responses

(References 4, 5, and 6) to those RAIs identified a number of issues which were considered to be generic issues that were to be resolved using the security frequently asked question (SFAQ) process. Those generic issues have now been resolved using the SFAQ process. The follow-up responses in this letter complete our responses to the NRC RAIs by agreeing to adopt the agreed upon language for the generic RAIs. The Physical Security Plan or Safeguards Contingency Plan section number referenced in the original RAI identifies each RAI for which we are updating our response.

This letter contains no new commitments. As noted in References 4 and 5, revised plan pages will be submitted when all RAI questions are resolved.

If you have any questions or require additional information, please contact Mr. Bryan Ford at (508) 830-8403.

I declare under penalty of perjury that the foregoing is true and correct. Executed on the 26<sup>th</sup> day of August 2004.

Respectfully submitted,

  
Stephen J. Bethay  
Director, Nuclear Assessment
