Entergy Nuclear Operations, Inc., (ENO), Vermont Yankee (VY) Nuclear Power Station is in receipt of your requests for additional information (RAIs) (References 1, 2, and 3). Our initial responses to these RAIs (References 4, 5, and 6) identified a number of issues which were considered to be generic issues that were to be resolved using the security frequently asked question (FAQ) process.

Those generic issues have now been resolved using the FAQ process. The responses in this letter complete our responses to the NRC RAIs by agreeing to adopt the agreed upon language for the generic RAIs. Each RAI, for which we are updating our response, is identified by the Physical Security Plan (PSP) or Safeguards Contingency Plan (SCP) section number referenced in the original RAI.

This letter contains one new commitment which is listed in Attachment 2. As noted in references 4, 5 and 6 revised plan pages will be submitted when all RAI questions are resolved.

If you have any questions or require additional information, please contact Mitch McCluskie at (802) 258-4187.

I declare under penalty of perjury that the foregoing is true and correct. Executed on August 27, 2004.

Sincerely,

for Jay K. Thayer
