Re: Radioactive Materials License #13-32106-01

Dear Ms. Pehlke:

We have transferred all of our licensed radioactive materials, sealed sources and waste, from 7836 W. Jefferson Blvd. to 7916 W. Jefferson Blvd. on this date. We then completed a detailed closeout survey of the 7836 W. Jefferson Blvd. facilities on 8/20/04 and there was no remaining activity or contamination found. The survey meter used was a Ludlum 14C, #70257, with a thin window g.m. detector (model 44-9) and a NaI scintillation crystal detector, (model 44-3). The survey meter was calibrated on 4/29/04.

The wipe samples were assayed with a Ludlum Model 2200 well and scaler, # 153393, calibrated 4/29/04, (93% efficiency for Co-57). A copy of the closeout survey is attached for your review.

We request that the 7836 W. Jefferson Blvd. address be removed from our license.

Thank you.

Sincerely,

Jo Ann Johnston  
Director of Ancillary Services  
Heart Center Medical Group
