Eddie - On May 11, for the hydrology site visit, it will be myself and Goutam Bagchi from the NRC and Lance Vail and Chris Cook from PNL. On May 12, for the security/site hazards visit, it will be myself, Al Tardiff (security reviewer) and Kaz Campe (site hazards reviewer). I am still waiting to hear back from the security reviewer on your questions concerning his visit on the 12th. I will get back to you as soon as I hear from him.

Nan

Nanette -
Thanks for the heads up on the May 11-12 Site Visit info.

However, the info prompts a few questions.

- 1) Can you give me an approximate head count for the tours each day?
- 2) Can we get a little more guidance on what might constitute the requested/needed Security "data"?
- 3) What topics might fit into the safeguards information arena "discussions and accumulation of information"?

Repeat of the provided info... (for ease of reference)

=====
=====
=====

Security - May 12

Need data to analyze:

- 1) air approaches to the site and PA
- 2) water approaches to the site and PA
- 3) Land approaches to the site and PA
- 4) Identification of offsite response resources

A physical walk/drive around the OCA and PA.

Consider discussions and accumulation of information to go to the Safeguards Information arena.
