Dear Ms. Geer,

As part of the Exelon Clinton Nuclear Station Early Site Permit, enclosed is a copy of the Evacuation Time Estimate for the Clinton Station that was completed in 1993. I have also enclosed an Assessment Report that was completed in 2003 for the Clinton Station. This report determined that the evacuation times calculated in 1993 are still representative of current conditions in the EPZ, and a full ETE update study was not warranted.

Please contact me at (630) 657-4666 if you have any questions.

Sincerely,

Gerald DeYoung
