Docket No: 50-440

Subject: Updated Responses to Requests for Additional Information (RAIs) on the Proposed Perry Nuclear Power Plant Physical Security Plan (TAC NO. MC2955)

This letter provides updated, non-safeguarded responses to four Requests for Additional Information (RAIs) regarding the proposed Perry Nuclear Power Plant (PNPP) Physical Security Plan (PSP). The PNPP PSP was submitted to the NRC in a letter dated April 28, 2004 (PY-CEI/NRR-2797L).

NRC Issue: At the end of the first paragraph of Section 9.3 of the Plan, please add the word "retrieved".

Response: The word "retrieved" will be added as the last word in the first paragraph of Section 9.3.

NRC Issue: For Section 7 of the Safeguards Contingency Plan (SCP), RAIs A and B addressed actions being taken in response to the Safeguards Advisory for Operating Reactors (SA-04-07) and Paragraph B.5.a of Attachment 2 of the ICM Order, respectively. Please identify the section(s) in the SCP that address these actions.

Response: The actions necessary to address both paragraph B.5.a of Attachment 2 to the ICM order and SA-04-07 fall under, and are governed by, requirements currently outlined in SCP Section 4.4. This supersedes the response provided in Attachment 1 of a letter dated August 17, 2004 (PY-CEI/NRR-2822L).

NRC Issue: In Section 10.5.1, please revise your PSP to describe the actual approach or combination of approaches that will be implemented at your facility.

Response: Section 10.5.1 will be revised to include the following sentence at the end, just after Approach 10.5.1.4: "Presently, PNPP uses a combination of approaches 10.5.1.3 and 10.5.1.4." This supersedes the response provided in Attachment 3 of a letter dated August 17, 2004 (PY-CEI/NRR-2822L).

NRC Issue: In Section 14.1, the first paragraph, please revise the word "capability" in lines 4 and 7 to be "conditions".

Response: In Section 14.1, lines 4 and 7 of the first paragraph will be revised to use the word "conditions" rather than "capability". This is a revision of a response provided in Attachment 3 of a letter dated August 17, 2004 (PY-CEI/NRR-2822L).
