Subject: ESP template and Part 21

As basis for discussion at our meeting set for 9/9, attached is a letter dated today that provides our comments on the ESP template related to Item 7 on Part 21 applicability. The template comments we provided on July 30 are provided again as an enclosure.

Also related to Part 21, we plan to seek clarification of this NRC staff statement in its June 22 letter on Part 21 applicability:

[Therefore,] "unless, an ESP applicant can demonstrate in its application that there is reasonable assurance that the Section 50.55(e) and Part 21 obligations - both retrospective and prospective - will be met, either through a Part 21 reporting program or an equivalent alternative..., the NRC could not find that the requirements of these regulations will be satisfied."

What is it you expect to see in ESP applications?

If you have any questions, please give me call.
