Subject: OCFO review of Proposed Policy Statement on Medical Use of  
Byproduct Material

Cathy--

OCFO has reviewed the draft proposed "Policy Statement on the Medical Use of Byproduct Material", and has no objections. We concur in the package with the addition of the several sentences in the Commission paper to tie the resources for developing the policy statement to those discussed in the Part 35 rulemaking paper.

Please add the following text to the Coordination section of the Commission paper:

"The Office of the Chief Financial Officer has reviewed this paper for resource implications and has no objections. Resources to develop this policy statement are included in those discussed in the paper transmitting the proposed revision of 10 CFR Part 35 to the Commission."
