8. Entergy letter from Gary J. Taylor, CEO, to Document Control Desk dated June 3, 2003, Entergy Operations, Inc., Entergy Nuclear Operations, Inc – Response to Issuance of Orders to Modify License for Revised Design Basis Threat and Compensatory Measures Related to Security Force Training and Fitness-For-Duty (CNRO-2003-00025).

Dear Sir or Madam:

Entergy's above referenced letters CNRO-2004-00042, 00044, 00046, 00048, 00052 and 00058 (references 1-6) provided Entergy's combined responses to the NRC's requests for additional information regarding the Waterford 3, April 29, 2004 Security Plan submittal required by Order EA-03-086 (reference 7). As committed in each of those submittals, this letter and CD ROM provide the proposed revised Security Plan documents for your review and approval.

In order to standardize our fleet approach with the NRC-approved industry approach, Entergy's responses to Order EA-03-086 and requests for additional information were strictly based on NEI-03-12, "Template for the Security Plan, Training and Qualification Plan, Safeguards Contingency Plan" Revision 1 and subsequent guidance provided by NEI and approved by the staff. Changes were made during this update to sections 9.4.1 and 10.1 as discussed with M. Chernoff on August 31 and September 1, 2004, and other editorial corrections were made that were consistent with NRC guidance dated August 12, 2004.

This letter includes no new commitments. If you have any problems with the CD ROM or require additional information, please contact Gregory Scott at 504-739-6703.

I declare under penalty of perjury that the foregoing is true and correct. Executed on September 9, 2004.

Sincerely,

J.E. Venable
Vice President Operations, Waterford 3

JEV/GCS/cbh
