Gentlemen:

Southern California Edison (SCE) consented to the *Order Requiring Compliance With Revised Design Basis Threat For Operating Power Reactors, EA-03-086*, (the "Order") on June 3, 2003 and submitted revised Security Plans for the San Onofre Nuclear Generating Station (SONGS) on April 28, 2004 as required by Condition III.A.1 of the Order. The NRC staff has conducted a review of the SONGS Security Plans and has informed SCE that all review comments have been satisfactorily addressed.

Accordingly, SCE has prepared a revision of the SONGS Security Plans that incorporates the changes resulting from the staff's review. Enclosed with this letter are the revised SONGS Security Plans for final NRC approval and subsequent implementation at SONGS as required by Condition III.A.2 of the Order.
