Subject: May 18 transcript

Greetings Mr. Emch,

In the transcript of the May 18 public meeting re Millstone, on page 104, line 6, it reads:

Mr. Steinberg (inaudible)

What I actually said was: "Except Millstone. The study found a problem around Millstone with childhood leukemia."

This was in reference to the NCI 1990 study of US nuclear power plants that Mr. Emch was discussing. I was referring to this passage from the study's conclusions:

"On examination of the data for individual facilities, only the incidence data for the area around Millstone nuclear power plant...showed a significantly increased relative risk of leukemia ages 0-9."

I am requesting that the above be entered into the public record.
Thank you.

Michael
