Attention: Docket 05-EI-136

With this letter, I want to express Consolidated Water Power Company's support of the sale of the Kewaunee Nuclear Power Plant by Wisconsin Public Service Corporation and Wisconsin Power and Light to Dominion Resources. We believe that the reliable energy needs of the state will be best met with this transfer of ownership.

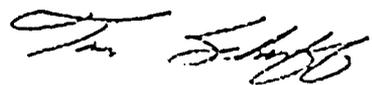

We have examined the issue carefully. The industry that we primarily serve, papermaking, is an energy intensive industry. We need this reliable source of energy long into the future. We believe that this can best be accomplished with the focus and experience that Dominion Resources brings to the table to manage the regulatory requirements, operational risk and complexities that a nuclear plant represents.

We believe that the benefits to ratepayers far outweigh the risks, and that all customers will benefit in the long term. They will receive low-cost power through 2013 with the assurance that the new owners will take financial responsibility for operations under strict contractual operational standards.

If you have any questions, do not hesitate to contact me.

Sincerely,

**CONSOLIDATED WATER POWER COMPANY**

Thomas G. Scharff  
President
