Subject: Thanks to Phil Qualls

Sunil,

I lead fire protection inspections in Region IV. I thought I'd take this opportunity to let you know that we get great help from Phil Qualls when we have sticky questions. He gives direct answers that reflect quite a bit of experience in the program, and he turns around an answer so fast to be useful at an exit. The attached e-mail is a good example where Phil adds value to the inspection program by providing perspective on the program that is not available anywhere else.

I hope you appreciate how much the inspectors appreciate Phil as a resource.

Neil O'Keefe
Senior Reactor Inspector, RIV

CC: Qualls, Phil
