

Use of Licensing Support Network (LSN) in Preparing for the HLW Licensing Proceedings

*Dan Graser
Licensing Support Network Administrator*

Licensing Support Network Overview

- *Part of NRC's Rules of Practice*
- *Portal Software Connects Document Collections*
- *Single Location Search Interface*
- *Available via Internet*
- *Standard Web Browsers*
- *Operational October 2001*

Who's Currently Involved

- ***NRC Operates Central LSN Search Site***
- ***Participants Maintain Their File Collection***
- ***Parties & Potential Parties:***
 - ✓ *State of Nevada*
 - ✓ *Affected Units of Local Government*
 - ✓ *Tribal Interests*
 - ✓ *Nevada Nuclear Waste Task Force*
 - ✓ *U.S. Nuclear Regulatory Commission*
 - ✓ *U.S. Department of Energy*
 - ✓ *Nuclear Industry*
- ***Over 750,000 Documents Currently Online***

LSN: First Step In the Process

- **WHAT:**
Use LSN to Find & Identify Information
- **HOW:**
Internet Access Identifies Where Official Version Can be Acquired
- **WHO:**
Parties to Licensing Proceeding (Priority User)
The Public (Public User)
- **WHEN:**
Starting October 2001 then Throughout Hearing

Availability

- *LSN Primary Mission - - Support Scientific & Legal Teams of the Parties to the Proceeding*
- *Distinguishes Between Priority Users and Public*
 - *To Ensure Participant Access During Peak Usage*
- *Participants Can Obtain Priority User IDs*
 - *Save Searches*
 - *Identify Recently Added Items*
- *Public May Lose Ability to Search via LSN*
 - *Alternates are DOE Site Search Engine and NRC's PARS*

What is the Challenge?

- ***Information is Out There***
 - ***2 Million Documents – 25 Million Pages***
 - ***Homogenous Collection***
- ***Haven't Time to Read it All***
 - ***May Not Want to Read it All***

But - -

- ***Need to Identify and Acquire Documentary Materials to Support Issues/Contentions***
- ***Want to Have the Facts***
- ***Know Which Issues Concern You***

Where the LSN Fits in the Process

- **Search – Look for Information**
- **Identify – What It is & Who is the Owner**
- **Acquire – For Document-based Items An Image is Needed for a Submission**
- **Organize – Collect Documents In Electronic Format**
- **Submit – Pre-filed Materials to Electronic Hearing Docket (EHD) via Electronic Information Exchange (EIE)**
- **Present – Digital Documents at Hearing via Digital Data Management System (DDMS)**

What is a Portal?

A Portal is a Gateway to Like Kinds of Information of Interest to A Community of Users

Title: Evaluation of Alternative Materials for Emplacement Drift Ground Control
Document Identifier: BCAA00000-01717-0200-00013 REV 00 Page: II-2 of II-2
HRT 7/19/99
= (2.4 to 28) kg / bolt x 10 bolts / meter = 24 to 280 kg cement / linear meter of drift.

Cement in Concrete Lined Drift:

Weight of cement = 1,530 kg cement / linear meter of drift (CRWMS M&O 1997, p. 60)

Ratio of Cement for Grout Bolts to Cement for Concrete Lined Drift:

$[(24 \text{ to } 280) \text{ kg / m}] / (1,530 \text{ kg / m}) = 1.6 \text{ to } 18.3 \%$

Check Against Field Experience at Site:

Per 05/03/99, 04:24 PM, e-mail, Robert Skorseth to Kenneth Herold, grout use for Williams Rockbolts from Station 07+19.91 through 7+34.52 averaged 0.75 cubic feet per 3-meter long x 1 1/8 inch diameter rockbolt in 2 1/4-inch diameter hole.

Electronic Motions

A motion is an application made to a presiding officer for the purpose of obtaining a ruling or order directing some act to be done in favor of the requesting party.

All motions in the proceeding on the application for a license to receive and possess waste at a geologic repository operations area must be filed into the Electronic Hearing Docket (EHD), unless made orally on the record. Motions must be filed via NRC's Electronic Information Exchange (EIE) system, in accordance with 10 C.F.R. 2.1013(c).

To use the NRC's EIE system, follow this link.

The Licensing Support Network (LSN) is an official United States Government web site.
Please e-mail your comments and suggestions to the LSN Webmaster.

Electronic Docket

A docket is the information collection that constitutes the formal record of a case in a court or administrative agency, from its inception to its conclusion. The NRC's electronic docket is the electronic information system that receives, distributes, stores, and retrieves the Commission's docket materials. The Electronic Hearing Docket (EHD) for the high-level waste repository licensing proceedings resides in the NRC's Agencywide Document Access and Management System (ADAMS).

The docket of the proceeding on the application for a license to receive and possess waste at a geologic repository operations area contains the official record materials in searchable full text or, for material that is not suitable for entry in searchable full text, by header and image, as appropriate.

Items in the EHD for the high-level waste repository licensing proceedings include:

- the U.S. Department of Energy's (DOE) license application;
- list and copies of all exhibits;
- transcripts (official copy of the record of proceeding during the hearing);
- party pleadings (documents in which parties or their lawyers "plead" their case/viewpoints/arguments on anything in dispute);
- presiding officer issuances (rulings on procedural matters (setting

Licensing Support Network

Welcome to the Licensing Support Network (LSN) help section. To assist you in finding your help area of interest, this help section has been broken into topical areas (see links on the left side of this page). The help pages have been written as concise as possible with available links within each page (where applicable) to allow you to obtain more detailed information. In addition, some of these web pages use examples (e.g., screen shots) as an aid to understanding how a particular function works (e.g., advanced search). If you are unable to find the help you are looking for or have a suggestion on how we can improve this help section, please use the "comments and suggestions" e-mail link at the bottom of this page.

The Licensing Support Network (LSN) World Wide Web portal has been developed to make documentary material and other pertinent information available electronically to parties, potential parties, and interested governmental participants to the proceeding for a license to receive and possess high-level nuclear waste at a geologic repository.

The documents for search and retrieval on the LSN have been made available by parties to the proceeding. Parties to the proceeding include, but are not limited to, The Department of Energy (DOE), The Nuclear Regulatory Commission (NRC), and Nye County Nevada. When a result is returned from a query, the "Source" is identified by a three letter code (e.g., NRC, DOE, NYE).

Because the LSN provides access to information from multiple sources, there are multiple formats for the documents and some require special viewers. Please see the [File Viewers \(plug-ins\)](#) help page for more information.

For additional help sources you might try:

- The LSN Web Based Lessons
- Consult with an LSN "expert" within your organization

Document Date

The date on which the document was completed, issued, effective, or published. If the date is unknown, information in the document is used to estimate a date.

You may use the following date options for your search:

- Leave both the "From" and "To" dates empty, indicating that you do not want to limit your criteria to a date range.
- Enter only the "From" date, meaning 'give me all documents with a date on or after the date specified'.
- Enter only the "To" date, meaning 'give me all the documents with a date before or equal to the date specified'.
- Enter both dates, meaning 'limit the documents to the date range specified'.

When entering dates, you must select the month from the drop-down list, type in the day, and type in the four digit year.

Subject: Governmentwide Survey on Human Capital

Dear Federal Employee,

With 1.8 million employees, the Federal Government is the largest civilian employer in the world. Every employee plays a role within the mission of each Federal agency or department. More than ever, your work is critical to the well-being and security of our Nation.

The Office of Personnel Management is conducting a Governmentwide study to determine the effectiveness of Federal agencies in managing the workforce. You have been selected to complete this new survey to help share your views on your job. Depending on participation rates, this could be the largest survey of Federal employees ever conducted.

Your views are very important. The data will be compiled and analyzed to determine employee attitudes toward the importance of their work and satisfaction with their jobs and compensation package. It will help us learn about the primary factors drawing individuals into Government service, for instance, and whether employees feel they are rewarded fairly for good performance.

We have asked for your agency's cooperation in sharing your e-mail address so that we could contact you and ask you to complete the survey. Your answers will be transmitted directly to OPM at our web site address. The survey should take about 30 minutes to complete. You may use official time to complete the survey. We appreciate your assistance in this effort, and thank you for your service to this Nation.

Sincerely,

Kay Coles James

Director
