10:00 a.m. - 12:00 p.m.

LOCATION: U.S. Nuclear Regulatory Commission
One White Flint North

PURPOSE: The NSC will provide the PRB with any relevant additional information to supplement its August 10, 2004 petition (Accession No. ML042370023), requesting actions to provide stronger defenses of boiling-water reactors with Mark I and II containments and their spent fuel.

CATEGORY 1*: This is a Category 1 Meeting. The public is invited to observe this meeting and will have one or more opportunities to communicate with the NRC after the business portion, but before the meeting is adjourned.

TELECONFERENCE: Originally, this discussion was to be conducted solely as a teleconference (see e-mail dated September 1, 2004; Accession No. ML042660076) per NRC Management Directive 8.11, "Review Process for 10 CFR 2.206 Petitions." On September 21, 2004, four NSC representatives requested to be present in person with the PRB during the teleconference. Hence the teleconference is changed to a public meeting.
