Subject: RE: Duke Energy Corporation Submittal to the NRC

Yes. This is the submittal on the issue discussed in Duke's correspondence to the Licensing Board and to the NRC Staff dated August 31, 2004. Your reference to a "chart" is presumably related to the reference in Duke's August 31 letter to dose information derived from Table 15-4 of the Catawba Updated Final Safety Analysis Report (UFSAR). This will be addressed in more detail in the forthcoming submittal from Duke to the NRC Staff.

This is on the updated information to the chart that we discussed earlier, which originally had the Sept. 10 target date?

>>> "Cottingham, Anne" <ACottingham@winston.com> 09/15/04 02:24PM >>>

We have been informed that Duke Energy Corporation has revised its target date for its submittal to the NRC Staff on issues relating to the mixed oxide (MOX) fuel license amendment request. The new target date is Friday, September 17, 2004.
