**Subject:** Fwd: IAEA DS-161 Review and comment *NMSS*

I received a call from Bob Meck in RES on Agency's DS-161 review. He's briefed Ashok Thadani and now needs to provide NRC's comments on DS-161 to the NRC steering committee on Fri July 18, which came as quite a surprise.

Apparently this schedule was presented at a meeting last week while the cognizant SFPO people were in Vienna. Path forward is for Bob to provide what he has tomorrow with a note that some transport-focused comments will follow next week.

**CC:** Robert Meck
