Subject: Re: CONFERENCE CALL ON IAEA DS161--ISCORS Recycle Subcommittee

Bob, the Commission briefing on International Challenges is scheduled for tomorrow from 9:30 AM- Noon. There will be presentations by NMSS and RES and will each likely address clearance, if not DS-161. I may not be able to attend the telecon; Tony H is out also.

Dear Colleagues,

I have reserved 8 lines for our telephone conference, tomorrow, Wednesday, August 21, at 10:00 a.m. EDT. The call in number is  
1 800 638-8081  
wait for the entire message and the beep then enter  
2956#

I have received a few clarifying edits that are included in the attached revisions. Let's use these as a basis for our call.

Best regards,

Bob
