Re: Amendment to NRC License Number 21-32298-01

Regional Cardiology Associates, PLC requests the following physician be added as an authorized user: Abdulfattah A. Osman, M.D..

Dr. Osman has completed 1303 hours of Nuclear Cardiology Training as part of his Fellowship in Cardiovascular Disease. The supporting documentation is attached.

If there are any questions, please contact our Medical Physicist, Dan L. Marx, MS, Radiological Physics Service @ 734-455-4730 or 810-730-6004 cell.

Your timely review of this request is greatly appreciated.

Sincerely,

Linda Sanders  
Business Manager

TO WHOM IT MAY CONCERN:

RE: Abdulfattah A. Osman, M.D,

Dr. Abdulfattah A. Osman has been a cardiology fellow at this institution for the last three years. I have known Dr. Osman in his capacity as a cardiology fellow and especially during his rotation in nuclear medicine. Dr. Osman has 500 hours of supervised work experience and has demonstrated competence in the following areas:

1. ordering and receiving radioactive materials,
2. performing related radiation surveys,
3. calibrating dose calibrators and diagnostic instruments,
4. performing checks for proper operations of survey meters,
5. eluting molybdenium-99/technetium-99m generator systems,
6. measuring and testing the eluate for molybdenium-99 and alumina contamination,
7. processing the eluate with the reagent kits to prepare technetium-99m radiopharmaceuticals,
8. calculating and dispensing patients' dosages using administration control to prevent misadministration.

Dr. Osman is bright, hardworking with high moral character and is very dedicated to medicine in general and particularly to his specialty. Because of his pleasant personality and ability to get along with colleagues and staff, it has been a pleasure working with him for the last three years. He will be a great asset in your institution and I highly recommend him.

Yours sincerely,

A handwritten signature in cursive script that reads "Seham Ali".

Seham A. Ali, Ph.D., BCNP  
Assistant Professor of Radiology
