Subject: Re: Subcommittee Updates for the ISCORS Notebooks

Dear Kathryn,

The ISCORS RECYCLE SUBCOMMITTEE coordinated and prepared the U.S. Member State Comments on the IAEA DS161 draft Safety Guide entitled, "Radionuclide Content in Commodities not requiring Regulation for Purposes of Radiation Protection," and the accompanying Safety Report that provided a technical basis for DS161.

This was a significant contribution and required several rounds of review and consultation before a U.S. consensus was reached.

Bob Meck

ISCORS Subcommittee Chairs,

In order to place your subcommittee updates in the ISCORS Principals notebooks in advance of the meeting, I will need to have them e-mailed to me no later than close-of-business Tuesday. Please let me know if you have any problems or need any help in getting this information to me on time. Thanks.
