REFERENCE : SNM-2500 Docket 72-1 TAC No. L23091

SUBJECT: Response to USNRC RAI dated May 16, 2003

Enclosed in Adobe .pdf format is 1 copy of subject USNRC RAI answers dated September 24, 2004 that include answers modified to agree with CSAR Revision 11 and SNM-2500 Amendment 12 that were submitted in August of 2004.

Additionally, included is 1 Copy of Fuel Basin Water Evaluation: Conductivity Change and Evaporation Rate dated June 24, 2004, a reference document that doesn't appear anywhere else. This document supports RAI Question 5-3.

All other reference/support document were included with previous answers to the RAI or are included in Revision 11 of the GE-MO CSAR, NEDO-21326D11, or with Amendment 12 of SNM-2500. Question answers in the RAI reference the location of the newest references.

This submittal of the RAI question answers, along with previously submitted (August, 2004) SNM-2500 Amedment 12, and NEDO-21326D11, with the exception of minor changes required to CSAR Section 8 and Apendix B-22 should bring all information for the GE-MO license application up to date.

Sincerely,

Edward W. Secko
Regulatory Compliance Manager

I acknowledge receipt of the GE-MO reply dated September 24, 2004 to the USNRC RAI dated May 16, 2003.

Signed
