Subject: DS-161 concurrence by DEDO

Dear Cheryl:

Please hold the submission, because I now have all the other agency comments and can quickly include the whole package. That is what IP is looking to submit to DOS for transmittal to IAEA.

Thanks,

Bob

I already met with Carl and provided DOE and State comments to him. Please just prepare a separate table with their comments that we can email to Carl - It must be done today. Please email it to me and I will forward it to Carl.
