Subject: Exelon Generation Company, LLC (EGC), Delay in Responding to Requests for Additional Information (RAI) regarding the Environmental Portion of the Application for an Early Site Permit (ESP) (TAC NO. MC1125)

Re: Letter, U.S. Nuclear Regulatory Commission (T. J. Kenyon) to Exelon Generation Company, LLC, (M. Kray), dated August 23, 2004, Request for Additional Information (RAI) Regarding the Environmental Portion of the Early Site Permit Application for the Exelon Generation Company Site (TAC NO. MC1125)

The referenced letter requested responses to the following by September 17, 2004:

- (1) RAI E3.8-15 regarding the transportation of light water reactor radioactive materials; and
- (2) RAI E9.2-1 regarding clean energy alternatives.

EGC has been unable to complete the responses to these requests for additional information (RAIs) by the requested date. However, we are diligently continuing our efforts and we anticipate that the responses will be submitted during the coming week of September 20, 2004.
