Subject: PTG / Florida License

Margory,
Here is a copy of our Florida license. Let me know if you need anything else.

Thanks,

Sheldon E. Cash

U.S. NUCLEAR REGULATORY COMMISSION TELEPHONE CONVERSATION RECORD		Conversation Date: September 1, 2004 September 2, 2004	
		Time: 9/1/04: 14:30 9/2/04: 16:25	
Mail Control No.: 135410		License No.: 06-30521-01	Docket No.: 030-35032
Licensee/Applicant Participant(s): 9/1/04: Sheldon Cash 9/2/04: Brian Rerko		Organization: Parsons Transportation Group	Telephone No.:
Person(s) Calling: Marjorie McLaughlin			
Subject: Re: Disposition of Troxler Model 3411 Gauge SN 13666			
Summary: 9/1/04: Mr Cash called me in response to my request of Ms Ilse Fersing to obtain a copy of Parson's Florida office's license to use radioactive materials. Mr Cash stated he would email me a copy of the license. I received the License (Florida BRC License No. 2114-1) on 9/1/04. The license identifies the licensee as "Steinman, Boynton, Gronquist, & Birdsall, Inc." I found through an Internet search that this is a bridge design and building firm that became part of Parsons Transportation Group in 1988. The license states that the storage place for the material is 5757 University Boulevard West, Jacksonville, Florida. This is not the location of the Miami office listed on the shipping papers. 9/2/04: I phoned Mr Rerko of the Parson's Miami office to determine which office has possession of the gauge. I left a message.
