License No. DPR-20

Withdrawal of Relief Requests - Request for Relief from ASME Section XI Code Requirements for Repair of Pressurizer Nozzle Penetrations

By letter dated August 9, 2004, Nuclear Management Company, LLC (NMC) requested relief from certain sections of the American Society of Mechanical Engineers (ASME) Boiler and Pressure Vessel (B&PV) Code, Section XI, 1989 Edition, in the event a pressurizer nozzle was in need of a repair at the Palisades Nuclear Plant.

It has been determined that no repairs are needed on the pressurizer nozzles and therefore, NMC is withdrawing these relief requests.

Summary of Commitments

This letter contains no new commitments and no revisions to existing commitments.
