September 16, 2004

David B. Matthews, Director  
Division of Regulatory Improvement Programs  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555-0001

**Subject:** Completion of Site-Specific Compensatory Measures

**Reference:** CAL No. NRR-03-003, Dated October 22, 2003

Mr. Matthews:

The Nuclear Engineering Teaching Laboratory (Facility License R-129) (NETL) has completed the site-specific compensatory measures implementation plan as detailed in previous submittals to the NRC and in CAL-03-003. All specified measures were completed by December 2003 but the facility Management was reviewing some new facility modifications that would occur in 2004. The modifications could have required changes to the original compensatory action letter. The NETL has completed these facility modifications and does not believe any changes to the original submittals are required.

Respectfully,

A handwritten signature in black ink, appearing to read "Sean O'Kelly".

Sean O'Kelly  
NETL Associate Director
