Document Control Desk  
United States Nuclear Regulatory Commission  
Washington, DC 20555-0001

Subject: Toshiba FPGA-Based Control Systems Qualification Project Topical Report Review

Reference: NRC Project Number 729; NRC Docket Number 00000729; NRC TAC Number MC1776

Gentlemen:

The purpose of this letter is to inform the Commission that Toshiba's submittal of the Topical Report for the FPGA-Based Control System Qualification Project will be delayed.

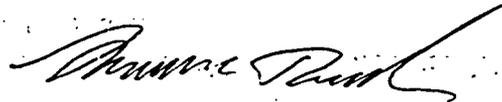

Toshiba is continuing this project and plans to submit the Topical Report at a future date. Accordingly, Toshiba requests the following from the NRC:

- Please close out the current NRC TAC Number for this project (MC1776).
- Please keep active the NRC Project Number (729) and NRC Docket Number (00000729) for this project.

Toshiba will inform the NRC of the updated schedule, and in the future will request that the NRC open a new TAC Number for NRC effort in this project.

Should you have any questions regarding this request, please contact me at (703) 519-0200, Mr. Masahiro Horiguchi of Toshiba America Inc. at (212) 596-0669, or Mr. Naotaka Oda at +81-45-770-2188.

Sincerely,

Randolph C. Trench
