Tony,

I don't foresee any problems with issuing the CA license. I am expecting a response to my last set of questions.

Does the NRC need us to issue the CA license before you issue the NRC exempt distribution license??  
The reason why I am asking is because the October 12th date is coming up.

Franklin,

Thanks for your return call last week. I understand you are in training this week. Upon your return if you could advise me if it looks like there might be a problem, or not, issuing the CA license to Smith & Wesson, a Division of CampCo. My internal deadline for completing their request for an exempt distribution license for tritium watches containing less than 25 millicuries is October 12, 2004. Otherwise they will have to resubmit their application again.

Appreciate your reply upon your return and after your review of CampCo's response to your questions.

Sincerely,

Anthony S. Kirkwood, Health Physicist
