## U.S. ATOMIC ENERGY COMMISSION

Form Approved Budget Dineau No. 38-110160

# REGISTRATION CERTIFICATE—IN VITRO TESTING WITH DYPRODUCT MAYERIAL UNDER GENERAL LICENSE

Section 31.11 of 10 CFR 31 c tablishes a general license authorizing physicians, clinical laboratories, and hospitals to possess certain small quantities of byproduct material for in vitro clinical or laboratory tests not involving the internal or external administration of the hyproduct material or the radiation therefrom to human beings or animals. Possession of hyproduct material under 10 CFR 31.11 is not authorized until the physician, clinical laboratory, or hospital has filed Form AEC-183 and received from the Commission a validated copy of Form AEC-483 with registration number.

TOSEPH KANDLA, M.D. 100-A Colonial RODD HAMISBURG, PENNO. 17109

- 3. I hereby apply for a registration number pursuant to § 31.11, 10 CFR 31 for use of byproduct materials for (please check one block only)
- a. Myself, a duly licensed physician authorized to dispense drugs in the practice of medicine.
- b. The above-named clinical laboratory.
- C. The above-named hospital.
- 4. To be completed by the Atomic Energy Commission

INSTRUCTIONS

1. Submit this form in triplicate to: United States Atomic Energy Commission Attention: Directorate of Licensing, Materials Branch Washington, D.C. 20545

. 2. Please print or type the name and address (including zip code) of the registrant physician, clincial laboratory, or hospital for whom or for wheh this registration form is filed. Position the first letter of the address below the left dot and do not extend the address beyond the right dot. (At AEC, a registration number will be assigned and a validated copy of Form AEC-483 will be retuined.)

Registration number: 4950 FOR THE U. S. NUCLEAR/REGULATORY COMMISSION

> March 21, 1979 (Leave this space blank-number to be assigned by AEC)

5. If place of use is different from address in Item 1, please give complete address:

#### 6. Certification:

I hereby certify that:

- a. All information in this registration certificate is true and complete.
- b. The registrant has appropriate radiation measuring instruments to carry out the tests for which byproduct material will be used under the general license of 10 CFR 31.11. The tests will be performed only by personnel competent in the use of the instruments and in the handling of the byproduct materials.
- c. I understand that Commission regulations require that any change in the information furnished by a registrant on this registration certificate be reported to the Directorate of Licensing, Materials Branch, within 30 days from the effective date of such change.
- d, I have read and understand the provisions of Section 31.11 of AEC regulations 10 CFR 31 (reprinted on the reverse side of this form); and I understand that the registrant is required to comply with those provisions as to all byproduct material which he receives, acquires, possesses, uses, or transfers under the general license for which this Registration Certificate is filed with the Atomic Energy Commission.

Printed name and title or position of person filing form

- §31.11 General license for use of iodine-125 or iodine-131 for in vitro clinical or laboratory testing.
- (a) A general license is hereby issued to any physician, clinical Johenatory, or hospital to receive, acquire, possess, transfer or use, for any of the following stated tests, in accordance with the provisions of paragraphs (b), (c), (d), (e), and (f) of this section, the following byproduct materiels in preparkaged units:

(1) dodine-125, in units not exceeding 10 microcuries each for use in vitro clinical or laboratory tests not involving internal or external administration of byproduct material, or the radiation therefrom, to human beings or animals.

- (b) No person shall receive, acquire, possess, use or transfer hyproduct material pursuant to the general license established by paragraph (a) of this section until he has filed Form AEC-183, "Registration Certificate In Vitro Testing with Byproduct Material Under General License", with the Directorate of Licensing, Materials Branch, U.S. Atomic Energy Commission, Washington, D.C. 26545, and received from the Commission a validated copy of Form AEC-483 with registration number assigned. The registrant shell furnish on Form-AEC-483 the following information and such other information as may be required by that form:
  - (1) Name and adress of the registrant;
  - (2) The location of ure; and
- (3) A statement that the registrant has appropriate radiation measuring instruments to carry out in vitro clinical or laboratory tests with byproduct materials as authorized under the general license in paragraph (a) of this section, and that such tests will be performed only by personnel competent in the use of such instruments and in the handling of the byproduct materials.

- (c) A person who receives, acquires, powerses or uses byproduct material pursuant to the general license established by paragraph (a) of this section shall comply with the following:
- (1) The general license chall not possess at any one time, pursuant to the general license in possessaph (a) of this section, at any one location of storage or use a total account of indice 125 and/or isoline-131 in excess of 200 microcuries.
- (2) The general licenses shall store the hyproduct material, until used, in the original shipping container or in a container providing equivalent radiation protection.
- (3) The general licenses shall use the hyproduct material only for the uses authorized by paragraph (a) of this section.
- (4) The general licensee shall not transfer the hyproduct material to a person who is not a the lived to receive it pursuant to a license issued by the Commission or an Agreement State, I nor transfer the hyproduct material in any manner other than in the unopened, labeled shipping container as received from the supplier.
- (d) The general licensee shall not receive, acquire, possess, or use hyproduct material pursuant to paregiaph (a) of this section:
- (1) Except as prepackaged units which are labeled in accordance with the provisions of a specific license issued under the provisions of § 32.71 of this chapter or in accordance with the provisions of a specific license issued by an
- <sup>1</sup> A State to which the Commission has transferred certain regulatory authority over radioactive material by formal agreement, pursuant to section 274 of the Atomic Pursuant to 1954, as amended.

Agreement State, which authorizes manufacture and distribution of iodice-125 oriodine-131 for distribution to persons generally licensed by the Agreement State.

(2) Unless the following statement, or a substantially similar statement which contains the information called for in the following statement, appears on arbital affixed to each prepackaged unit or appears in a leaflet or brochme-which accompanies the package:

This radio active material may be received, acquired, possessed, and used only by physicians, clinical faboratories or hospitals and only for in vivo clinical or lateomatory tests not involving internal or external administration of the material or the radiation therefrom to human beings or animals, its receipt, acquisition, possession, use, and transfer are subject to the regulations and a general license of the U.S. Atomic Energy Commission or of a State with which the Commission has entered into an agreement for the exercise of regulatory authority.

# Name of manufacturer

(e) The registrant possessing or using byproduct materials under the general license of paragraph (a) of this section shall report in writing to the Directorate of Licensing, Materials Branch, any changes in information furnished by him in the "Registration Certificate in Vitro Testing with Bypro-fact Material Under General License", Form AEC- 483. The report shall be furnished within 30 days after the effective date of such change.

(t) Any person using byproduct material pursuant to the general licerse of paragraph (a) of this section is exempt from the requirements of Part 20 of this chapter with respect to byproduct materials covered by that generallicense.

### NOTE

If larger quantities or other forms of byproduct material than those specified in the general license of 10 CrR 31.11 are required, an "Application for Byproduct Material License," Form AEC-313, should be filed to obtain a specific byproduct material license. Copies of application and registration forms may be obtained from the United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Materials Branch, Directorate of Licensing.
