**Subject:** FW: 13.8kV Breaker Failure to Close Preliminary ERCFA/NRC Update

Don,

This is ready for the NRC AIT team. Can you get a copy to Jim Melfi?

**Subject:** 13.8kV Breaker Failure to Close Preliminary ERCFA/NRC Update

Attached is a draft of a status report that I promised Mark Hypse would be delivered to Don Straka on 7/6/04 for purposes of updating the NRC AIT and Residents (Jim Melfi) on this breaker failure issue. I will not be in the office tomorrow but can be reached at home or by pager.

Denny and Steve,

Please review this draft and provide any comments you have to Mark (please copy me on your comments).

Mark,

Please coordinate the comments and ensure that the finished product is delivered to Don Straka with a copy to Jim Melfi since he is closely following this issue.

Thanks,  
John
