Page Revision for Duane Arnold Energy Center Security Plan

On October 18, 2004, Nuclear Management Company, LLC (NMC) submitted a revised Security Plan for Duane Arnold Energy Center (DAEC) in response to the NRC's Order dated April 29, 2003, *Requiring Compliance with the Revised Design Basis Threat*. The submitted Security Plan incorporated revisions to address NRC's Request for Additional Information. Subsequent to that submittal, we have determined, through conversations with members of your Staff that additional changes are needed. The enclosed page contains those changes. Please replace the previously submitted page of the DAEC Security Plan with the enclosed, revised page.
