SUBJECT: ACCEPTANCE OF TOPICAL REPORT ANF-1358(P), REVISION 3, "THE LOSS OF FEEDWATER HEATING TRANSIENT IN BOILING WATER REACTORS" FOR REVIEW (TAC NO. MC4260)

Dear Mr. Mallay:

By letter dated August 19, 2004, Framatome ANP submitted for U.S. Nuclear Regulatory Commission (NRC) staff review Topical Report (TR) ANF-1358(P), Revision 3, "The Loss of Feedwater Heating Transient in Boiling Water Reactors." The NRC staff has performed an acceptance review of TR ANF-1358, Revision 3. We have found that the material presented is sufficient to begin our comprehensive review. The staff expects to issue requests for additional information by February 4, 2005, complete its review by September 1, 2005, and estimates that the review will require approximately 370 staff hours including project management time. The review schedule milestones and estimated review costs were discussed and agreed upon in a telephone conference between you and myself on October 20, 2004.

Section 170.21 of Title 10 of the *Code of Federal Regulations* requires that TRs are subject to fees based on the full cost of the review. You did not request a fee waiver; therefore, staff hours will be billed accordingly.

Sincerely,
