Dear Mr. Leyse:

I am writing to inform you of the status of your petition for rulemaking requesting changes to the regulations and guidance on evaluating ECCS performance (Docket No. PRM-50-76, dated May 1, 2002). As you are aware from the previous status letter on PRM-50-76, a decision was made to request review of the petition by the NRC Office of Research (RES), relative to ongoing work on ECCS performance. The RES review is complete and the staff has met with a Petition Review Board (PRB) . A recommendation to the Commission regarding disposition of this petition is in preparation

As you are aware, until the Commission has approved the recommended resolution of the petition, findings of the PRB are considered pre-decisional and can not be released. A letter will be sent to you regarding disposition of this petition as soon as the Commission has voted on the staff recommendations.

Sincerely,

/RA/
