ATTN: License reviewer

This letter is a request to add Henry G. Stratmann, M.D. to St. John's Hospital-Springfield license number 24-00866-02 as an authorized user of diagnostic cardiac imaging materials (35.200).

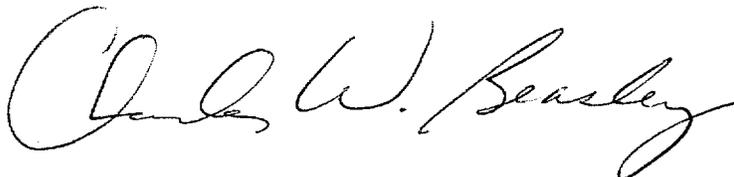

This was originally requested in our letter dated 5/9/2003 and denied. Subsequent to the denial, I have contacted Colleen Casey at the Regional III office and Bill Nelligan at the Certification Board of Nuclear Cardiology (CBNC) (successor to the Certification Council of Nuclear Cardiology (CCNC)) and learned of letter which addresses the CCNC versus CBNC.

In a letter dated 2/5/2003 from the NRC to the CBNC the last paragraph states in order for diplomats of the CCNC process to be added to a license they will have to submit both a copy of their CCNC certificate and a signed preceptor statement.

Please find enclosed a copy of the CCNC certificate and signed preceptor statement for Dr. Stratmann. We ask that this request receive an expedited review.

If you have any questions regarding this request, please contact me at 417-820-7705.

Sincerely,

Charles W. Beasley, Ph.D.; DABNM; DABMP

Encl. Copy of CCNC certificate and preceptor statement

To Whom It May Concern:

This letter is to affirm that Henry G. Stratmann, M.D., has gained clinical experience at our institution in nuclear cardiology. The preceptorship began September 1, 1995 and continued through April 1, 1996. During this period, the doctor actively participated in the following number of procedures:

603	Cardiac Perfusion Scan
2	Cardiac Rest Ventriculogram

During this time, Dr. Stratmann also acquired experience in health physics, radiopharmaceutical preparation, technical and administrative procedures of our facility, as well as, general operation as stipulated by our license conditions.

The doctor gained experience in the preparation of radiopharmaceutical kits during this period, and eluted the  $^{99m}\text{Tc}/^{99}\text{Mo}$  generator.

The hours of nuclear cardiology clinical and work experience during this period total 520 hours.

Sincerely,

JAMES W. FLETCHER, M.D.  
Professor of Medicine/Radiology  
Chief, Nuclear Medicine Service
