**Subject:** Postponement of November 15 Scoping Meeting

The purpose of this e-mail is to notify you of the postponement of the NRC's Environmental Impact Statement (EIS) public scoping meeting that was to be held on November 15 at the Vern Riffe Career Technology Center in Piketon Ohio. The NRC decided to postpone the meeting because on October 25, the NRC made its ADAMS system and Public Document Room, which contained the USEC Inc. American Centrifuge Plant (ACP) application and Environmental Report (ER), unavailable to the public. This action was necessitated by the NRC's initiation of additional security reviews of publically available documents contained in the NRC's ADAMS database, which is accessible through the NRC's website, and the Public Document Room, to ensure that potentially sensitive information is removed from these public information sources. I will notify you via e-mail once the non-sensitive portions of the ACP application and the ER documents are made available to the public via these two sources. I will also notify you via e-mail of the new date for the scoping meeting. You may also check the NRC's listing of planned NMSS meetings at http://www.nrc.gov/public-involve/public-meetings/meeting-schedule.html#NMSS
