**Subject:** SCWE-Guide; Federal Register/Vol.69, No. 198/Thursday, October 14, 2004

To Whom It May Concern:

The National Environmental Protection Center ("NEPC") desires to respond to the U.S. Nuclear Regulatory Commission's ("NRC") notice for public comment regarding the agency's forthcoming rulemaking decision with respect to regulatory issue summary to provide guidance for licensees on establishing and maintaining a Safety Conscious Work Environment ("SCWE"). However, due to recent actions by the NRC in scrubbing the ADAM's public document library to prevent terrorists from gaining sensitive information, NEPC is not able to obtain needed agency documents to construct its response to the agency's request for public comment. To this extent, NEPC requests that the NRC provide it with a "hard copy" of all relevant documents to enable NEPC to respond to the agency's request for public comments with respect to SCWE.

To the extent that the NRC has recently shut down the ADAM's public record system, NEPC requests that it be allowed additional time to respond to the agency's request for public comments regarding SCWE up to and including December 1st, 2004.

Thank you.
