Supplemental Request for Additional Information Regarding
Dominion Nuclear North Anna, LLC (Dominion) Early Site Permit Application
For the North Anna ESP Site

Section number refers to the applicant's environmental report (ER) for the early site permit (ESP).

Section 5.7 Uranium Fuel Cycle Impacts

E5.7-1

The North Anna ESP environmental report used Table S-3 as the basis for evaluating the contribution of the environmental effects of the fuel cycle. Table S-3, however, did not estimate releases or consider the environmental effects of radon-222 and technetium-99. The effects of these gases should be included in the environmental report. Provide a detail analysis of estimated releases and environmental effects of radon-222 and technetium-99 for the uranium fuel cycle.
