Licensee/Applicant Participant(s): Mr. Rusty Barrett, AEA Technology Ms. Jackie Garmany, Ronan Ms Cara klineburger, Schott International	Organization: Schott Scientific Glass, Inc.	Telephone No.: (225) 751-5893 (859) 342-8500 (570) 457-7485
Person(s) Calling: Ron Rolph		
Subject: Request for additional information		
<p>Summary:</p> <p>The application for Schott Scientific Glass, Inc. requests that the license be terminated. Confirmation is needed that the sources were in fact received and accepted by the licensee listed and that all leak tests showed negative results.</p> <p>I spoke with Rusty Barrett and he confirmed that they have two Level Link Inc. Model 77-A5 sources in their possession. Rusty will fax copies of the documentation. He suggested that I call Ronan as they actually receive the sources from them and do not deal with the licensee directly.</p> <p>I spoke with Jackie Garmany and she also confirmed that they prepared the paperwork and sources for shipment to AEA. She will fax me copies of the shipping documentation.</p> <p>I spoke with Cara Klineburger and explained I would need leak test results for the two sources sent to the manufacturer. She contacted Tom McDonald and he told her that he had the leak tests in his office. He will be back in his office on Friday 11/20/2004 and will fax me copies of the leak tests or call me.</p>		
Action Required/Taken: Document
