Radiation Management Services, LLC
ATTN: Clare Grehofsky, Radiation Safety Officer
6045 Cochran Road
Cleveland, OH 44139-3303

SUBJECT: CHANGE OF OWNERSHIP AND RENEWAL OF EXEMPT DISTRIBUTION
LICENSE NO. 34-25957-03E

Dear Ms. Grehofsky:

Enclosed is Amendment No. 10, reflecting the change of ownership and name from Cardinal Health 419, LLC, and the renewal of the U.S. Nuclear Regulatory Commission License No. 34-25957-03E.

Please review the enclosed document carefully and be sure that you understand all the conditions. If there are any errors or questions, please contact me so that appropriate corrections and answers can be provided.

Your product distribution report dated May 26, 2004, indicated that you possess Pu-239, but did not distribute any products incorporating this radionuclide. Please note that distribution of Pu-239 is not authorized under 10 CFR 32.18 or 32.14 because it is an alpha emitter, and by definition, special nuclear material. These calibration and reference sources may be distributed to general licensees pursuant to 10 CFR 70.19 via a specific license authorized by 10 CFR 70.39.

In addition, please be aware that 10 CFR 32.14 does not authorize the distribution of instruments and devices containing sources that are intended to be removed. You are authorized to distribute these check sources pursuant to 10 CFR 32.18 and 32.19.

Also note that we have deleted C-14 from the license (formerly 6D and 7D in the previous amendment to your license) because this was not requested in your renewal application, and the wording of 6C and 7C (formerly 6D and 7D in the previous amendment to your license) has been changed to more accurately reflect the types of sealed sources and limits on the quantities that may be distributed.

Please be advised that you must conduct your program involving radioactive materials in accordance with the conditions specified in your NRC license, representations made in your license application, and other rules, regulations, and orders of the NRC, now or hereafter in effect, to include the following:

1. Comply with applicable NRC regulations in 10 CFR Part 30, "Rules of General Applicability to Domestic Licensing of Byproduct Material"; 10 CFR Part 32, "Specific Domestic

Licenses to Manufacture or Transfer Certain Items Containing Byproduct Material"; and other applicable regulations.

NOTE: Licensees authorized to distribute or initially transfer products containing byproduct material must also possess a valid possession license issued either by NRC or an Agreement State(s) which authorizes possession and use of byproduct material.

2. Distribute only those products containing radioactive material which are specifically authorized in your license.
3. Notify NRC in writing within 30 days of any change in mailing address.
4. Request and obtain appropriate amendments if you plan to change control or ownership of your organization, change locations of distribution of products containing radioactive material, or make any other changes in your program which are contrary to the license conditions or representations made in your license application and any supplemental correspondence with NRC.
5. Submit a complete renewal application or termination request at least 30 days before the expiration date on your license. You should receive a reminder notice approximately 90 days before the expiration date. Continued distribution of products containing radioactive material after your license expires is a violation of NRC regulations.
6. In accordance with 10 CFR 30.36, request termination of your license if you plan to permanently discontinue activities involving distribution of products containing radioactive material.

You will be periodically inspected by NRC. Failure to conduct your program in compliance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC may result in enforcement action(s) against you. This could include issuance of a notice of violation; proposed imposition of a civil penalty; or an order suspending, modifying, or revoking your license as specified in the "General Statement of Policy and Procedures for NRC Enforcement Actions," (NUREG-1600).

In accordance with 10 CFR 2.390 of NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in NRC's Public Document Room

C. Grehofsky
