SUBJECT: CORRECTED COPY TO LICENSE AMENDMENT NO. 18

Please find enclosed a corrected copy to Amendment No. 18 of NRC License No. 49-18030-01. This corrected copy incorporates Isotope Products Laboratories, Inc. NES8412 in Item 7.G., as a transmission line source for the ADAC SPECT camera, as requested on October 19, 2004. In a review of the sealed source and device registry (SS&D) for Bristol-Myers Squibb Medical Imaging for NES-8412 transmission line source, the manufacturer references SS&D sheet #CA-0406-S-204-S, and states in part that the manufacturer [Bristol-Myer Squibb] requested that their SS&D sheet be inactivated since the model NES-8412 source was listed on SS&D sheet #CA-0406-S-204-S. The referenced SS&D sheet #CA-0406-S-204-S is for Isotope Products Laboratories transmission line source NES8412. Therefore, your license correctly reflects the manufacturer of the subject source.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, regarding this corrected copy to your license, please contact me at (817) 276-6552.

Sincerely,

/RA/
