Nuclear Regulatory Commission
Attn: Tracy Kime; Regulation Specialist
Washington, DC 20555-0001

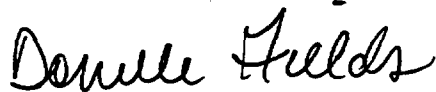

Dear Ms Kime:

Enclosed is an application for in vitro testing byproducts. I'm including copies of the original letter and registration certificate that we received in 1998. You were unable to locate the certificate to provide me with a copy. I need a new certificate or a copy of the original.

Return all correspondence to:
